Guest Speakers: Rock Star of the Week:

Geology, Geography- We are some of the officers on the e-board. This is our departments club, this semester we took over new roles and we are getting our groove. So far, we have planned the GGE Weenie Roast for next Thursday the 21st. I have been in contact with Penn State to come speak. The weenie roast gives lots of opportunities to meet the club as well as getting to know the faculty. We are also doing the highway cleanup, we have it out in Barkeyville, we have student presentations where they present on their internships to give students one experience with presenting Infront of a group. We put together the first department meeting with an attendance of 65 students which was the first meeting like this in a long time. Our goal is to expand the club and the department. Tyler- I am the PR I want this to be more of a community than a club! We want to make this club less of a secret.

Senator Hale: Are your events on CORE?

I think but I will talk with our department to make sure they are
